

AZTEC PLAYERS, ON WAY 3 DAYS, EXPECTED TODAY

Albuquerque Highs Complete Hard Work for Game to Be Played at Hopewell Field Tomorrow.

The Albuquerque high school football squad yesterday afternoon completed hard work in preparation for the Saturday game with the Aztec high school eleven. Today the team will go through a light work-out at signal practice in the high school gym. After a long, hard practice last night Coach Bepko expressed himself as confident of the ability of the yellow-and-white squad to take care of itself against anything that Aztec may send into the Saturday game.

However, Albuquerque hasn't a monopoly on the confidence talk, by any means. Aztec is simply chock-full of confidence in the ability of its heavy team to win against Albuquerque.

The Aztec squad, after a jump of nearly three days, is expected to arrive today, and in all probability will practice at Hopewell field either this afternoon or tomorrow morning or both, to get the lay of the land and get on their land legs again after the long train ride.

YALE AND HARVARD FOOTBALL MEN SEEK CHANGE OF SCENERY

Cambridge, Mass., Nov. 18.—The football eleven of Harvard and Yale having completed physical preparation for their combat at next Saturday, tonight sought relaxation in new surroundings. The Yale squad arrived at its temporary headquarters in Newton, within a few miles of the stadium, almost at the same time from Harvard players left for Tyngsboro. Harvard's strength was said to be at its full measure tonight with the exception of the loss of Enwright, due to scholastic differences.

The Yale men during the early evening went on a short walk and retired early. Trainer Mack said there was not a man in squad off form except Weidemann, the end, who was injured in the Princeton game.

ILLINOIS SQUAD WILL WORK TODAY ON STAGG FIELD

Chicago, Nov. 18.—Coach Zuppke led his squad of Illinois football players into Chicago tonight and tomorrow will put them through their paces on Stagg field in their last workout for the game with the Maroons Saturday, which is expected to go far toward deciding the conference championship. He expressed himself as satisfied with the condition of his men.

GOPHERS GO THROUGH LIGHT PRACTICE AND THEN DEPART

Minneapolis, Minn., Nov. 18.—The University of Minnesota football squad finished its final practice and light scrimmage today and then departed for Milwaukee tonight, filled with confidence of victory over Wisconsin in the annual battle at Madison Saturday.

Aside from Baltimore and Danbury, Coach Williams believes all of his men are in the best of condition.

MOTORCYCLE CLUB TO HOLD RUN TO SANTA FE

The Motorcycle club last night decided to hold a sociability run to Santa Fe a week from Sunday and to spend the day in the Ancient City. The club secretary read a statement from Secretary of State Antonio Lucero showing that there are 347 motorcycles in New Mexico.

FOOTBALL RESULTS

Headricks college, 13; State Normal, 7.
Austin college, 35; Trinity university, 6.
Friends university, 15; Cooper college, 6.
St. Mary college, 22; Bethany college, 9.

PERMIT FOR 86,000 PIECES OF MAIL IS ISSUED BY POSTOFFICE

A permit has been issued by the Albuquerque postoffice for the distribution of 86,000 pieces of mail to be sent to the first and second zones from the office here. Under the permit the house will pay postage in a lump instead of stamping each piece. The distribution of the 86,000 pieces will be made from time to time during a year.

Wanted Body Wanted.

East Las Vegas, N. M., Nov. 18.—Leaving a note in which he announced that he felt so bad he had gone to see a doctor, Wendell Carter, a waiter employed in the Hammark restaurant, left the establishment and caught a night train. At least he has not been seen since. Sixty-four dollars also disappeared from the cash register.

MADE OVER AGAIN.

Mrs. Jennie Miller Davidson, Ind. writes: "I can truthfully say Foley's Cathartic Tablets are the best I ever used. They are so mild in action, I feel like I have been made over again." Good health has no greater enemy than constipation. Foley's Cathartic Tablets keep the stomach sweet, liver vigorous, bowels regular, and banish biliousness, sick headaches, sour stomach, stout persons welcome the light, free feeling they give. Sold everywhere.

His Headwork Beat Princeton Tigers

Captain Eddie Mahan of Harvard Football Team.

Captain Eddie Mahan kicked the field goals in the great football game between Princeton and Harvard, and it was his headwork in the emergencies which carried his team to victory against one on which there were better individual players.

PROSECUTION IS WIDENING SCOPE OF CONSPIRACY

Evidence Is Being Produced to Show That Schmidt Was Implicated in Nation-wide Dynamite Plot.

Los Angeles, Nov. 18.—The expected legal contest over the admission of evidence relating to an alleged nationwide dynamite conspiracy, was precipitated today in the trial of Martin A. Schmidt, charged with the murder of Charles Fugate, one of the victims of the blowing in of the Los Angeles Times building, October 1, 1910, will be resumed tomorrow.

The defense is seeking to have the range of evidence restricted to events directly connected with the Times explosion, while the attorney for the state contends that a conspiracy could be proved only by circumstantial evidence and that more latitude should be allowed than in the case where a conspiracy is not involved.

A number of eastern witnesses were called on the stand today to identify copies of telegrams alleged to have been exchanged between union labor leaders and other witnesses prior to the explosion of the Times building.

Detective guarding Donald, 1906, one of the principal witnesses for the prosecution, reported to the district attorney today that they frustrated what they believed was an attempt to kidnap him last night. The alleged attempt was made in a local hotel and accounts of exactly what happened vary, except as to the fact that there was a fist fight in which one man was knocked down.

One is the man who formerly was friendly with Schmidt in New York City and who is said to have given the information which led to his arrest last February.

Arthur E. McManis, who confessed to complicity in the dynamite outrage, and was granted immunity by the state and who will be the state's witness in the present trial, was in court for the first time today since the trial began. He was in the company of a detective.

CONVENTION PROGRAM MAILED TO TEACHERS

The handbook and program of the New Mexico Educational association, which was gotten up by D. R. Lane and Edward Albright, has come from the press and Wednesday copies were mailed to every teacher in New Mexico.

The program is the most artistic and elaborate that has yet been attempted for a teachers' convention, and is in the highest degree attractive. In addition to containing all the details of the convention, it sets out a great deal of miscellaneous information which will be found useful to teachers generally.

NEW HAVEN CASE BEGINS ANOTHER OF ITS PHASES

Prosecution Introduces Testimony to Show How Control of Boston and Maine Road Was Secured.

New York, Nov. 18.—The trial of the eleven former New York, New Haven & Hartford directors, entered into a new phase today when the government began the presentation of its testimony to show how the New Haven acquired control of the Boston & Maine railroad, which virtually completed the alleged monopoly which the directors are charged with having conspired to create.

Through Charles S. Mellen, the government brought out that the negotiations for the control of the road were conducted by him in 1907 with Lewis "Doc" Ford, who represents the American Express company majority, holding of Boston & Maine stock, and who is one of the defendants.

In order to provide the necessary New Haven stock for the proposed exchange, Mellen said that the New Haven's membership lines were merged into the Consolidated Railway company, a New Haven trolley holding company, and the consolidated company into the New Haven, for which \$20,000,000 New Haven stock was issued and kept in the treasury for the purpose of the exchange.

The witness admitted that the stockholders of the Consolidated Railway were given the valuation Charles W. Morse had placed upon them, \$20,000,000, although they probably were not worth more than \$9,000,000 at \$100,000,000.

Negotiations also were held in the deal, Mr. Mellen said, with the New York Central, which had a controlling interest in the American Express company.

With intent to prove that the New Haven just prior to the deal, still had in view its alleged purpose of acquiring all the lines it could in New England, the prosecution showed the witness a copy of a memorandum prepared by the New Haven lease the Boston & Albany. The lease provided, Mr. Mellen testified, had been placed by him before the board. It was one of the matters which Mellen said he "brushed out" with W. H. Newman, the Central president at that time, and which Newman rejected.

The trial adjourned today until Monday. It is expected the government will complete its case next week.

Leaves Fortune to Jap Woman.

Seattle, Wash., Nov. 18.—William Holt, aged 52, hotel owner, real estate dealer and fruit grower, who died of tuberculosis last night, bequeathed nearly all of his \$150,000 estate to Miss Joe Suzuki, a Japanese woman who had been manager of a large hotel here in which he owned a half interest. Holt came to Seattle from Denver sixteen years ago.

Eggs packed in boxes of one dozen bring a better price than any other method of delivery.

By a recent contract with a big factory we are placed in a position to sell complete boxes at one cent each by the hundred. Less than a hundred would be little higher in price. These boxes are good ones and can be used more than once if desired.

UNITED STATES TO BUILD TWO GREAT WARSHIPS

Proposed Superdreadnaughts to Have 36,000 Tons Displacement and Record-breaking Guns and Speed.

Washington, Nov. 18.—Tentative plans are being considered, Secretary Daniels said today, for two 36,000-ton battleships to be included in the first year's part of the five-year building program congress will be asked to approve. There are no warships so large afloat anywhere in the world now.

Part of the increased displacement in the newest ships will be due to changed hull construction to provide additional torpedo defense bulwarks. While the general characteristics of the ships have not been disclosed, it is probable they will have increased armament and speed. The navy has developed a 16-inch rifle of which no use has yet been made, and the new ships may carry ten or more of these if developments of the European war indicate the wisdom of mounting them. The largest guns now afloat are the 15-inch weapons of European navies, which the American 14-inch rifle is said to equal for all practical purposes. Maximum speed of American battleships, now built or authorized, is less than twenty-one knots, although European first line ships go considerably above that. It is considered probable that a speed of perhaps twenty-five knots will be sought hereafter.

Secretary Daniels has received no report as yet on the examination of private bids received yesterday for battleships 13 and 14, all of which appeared to be above the limit fixed by congress.

Neither ship can be laid down before next summer, it is said, for lack of structural steel, the war having swept the American steel market clean. Secretary Daniels showed considerable concern today over this fact. An embargo on exportation of steel until the government's wants are supplied has been suggested.

Mr. Daniels said the armor bids for the new ships showed that American-made armor was not in such great demand abroad as structural steel. Secretary Daniels said today he believed the government should be equipped to do all the necessary work on a battleship. Such a plant, he declared, though it should "never beat a pound of metal," would have a salutary effect in fixing prices to be paid for new ships privately built.

GERMANY HAS COTTON TO BURN, SAYS BERLIN

Berlin, Nov. 18 (by Wireless to Sarffeld).—Germany not only has all the cotton she needs for military purposes for several years, but new fields of supplies are now open to her, says the Overseas News agency today. Prevention of cotton shipments to Switzerland on the contention that the material would find its way to Germany for making explosives will hurt the neutral nation, but will not injure Germany, it declares in commenting on Swiss reports that the canteen powers have stopped cotton shipments for Swiss mills.

Competent German authorities state that the German army is sufficiently provided with cotton for several years," the news agency says. "In addition huge quantities can be obtained from Turkey by way of the Danube and even if all shipments were stopped, Germany is provided with the material for an indefinite time."

DEWEY'S CHAPLAIN CLAIMED BY DEATH

New York, Nov. 18.—The Rev. Father William Henry Ironsides Reany, chaplain of the United States navy, who was with Admiral Dewey in the battle of Manila bay, died in a hospital here tonight of acute stomach trouble. Father Reany held the rank of chaplain, the highest obtainable by a navy chaplain.

He was born in 1853, when his father was commander of the old battleship Ironsides. At the request of the crew his father included Ironsides in his name. Father Reany was appointed a chaplain in 1882 and had been stationed at the Brooklyn navy yard for several years. He was chaplain of the United States Spanish war veterans.

PRICE OF PORK IS LOWERED IN GERMANY

Berlin, Nov. 18 (by Wireless to Tuckerton, N. J.).—Among the items given out today for publication by the Overseas News agency was the following:

"A general decline in meat prices continues. According to official figures the price of pork fell 22 percent from November 6 to November 12. Pork now costs from one mark 52 pfennigs to one mark 50 pfennigs per pound, against one mark 81 pfennigs to one mark 92 pfennigs, November 6. The decline is the effect of the recent ordinance making maximum prices.

Shipped Liquor As "Red Ink."

St. Louis, Nov. 18.—Because it shipped liquor as "red ink," a favor to its customers in dry territory, a wholesale liquor firm of this city has been required by the internal revenue department to take out a wholesale liquor dealers license, it was learned today. The liquor was sent with regular consignments of leather goods.

Not Coney Island, but Palm Beach

As You Must Look on Florida Sands.

Here's milder of Palm Beach. She will be down there by the thousand within a few months. In the meantime she is getting ready her costumes. This is one of them. Of course, it costs some money, but very few except those who have much money and time go to Palm Beach in the winter.

This dainty little confection—that's what the high class dressmakers call it—is really modest. There will be some at Palm Beach unlike it in many ways. If you want to make this one just listen to the fashion expert:

"It is fashioned like a little girl's dress with a bloused waist, short, puffed sleeves, and full gathered skirt. This suit is of gray salt water satin and has a high collar fastened with pearl buttons. The cap is trimmed with green and white striped satin."

AMERICANS MUST BE PROTECTED ON OPEN SEAS

Washington Is to Inform Austria That Small Boats Are Not Sufficient to Insure Safety.

Washington, Nov. 18.—While the United States will wait for the Austrian reply to Ambassador Penfield's inquiry concerning the circumstances under which the Italian liner Ancona was sunk, it was stated officially today that the placing of American citizens in small boats on the high seas was not regarded as according them "a place of safety" within the meaning of the term as used in international law.

In its correspondence with Germany over the Bryce case, the American government expressed the view that open boats did not constitute a place of safety. This was broadened today by an official interpretation to apply to all American citizens when traveling on belligerent or neutral ships.

Officials qualified their assertions somewhat by stating that if a vessel was destroyed within a few miles of shore life boats would be regarded as safe, but that weather conditions and the opportunity given for passengers to be transferred even then were pertinent circumstances. From these intimations it generally was believed that the American government would develop the entire question of submarine warfare further in correspondence with Austria and that even though the Austrian admiralty had declared, 45 minutes was given for the passengers and crew of the Ancona to be transferred, this was not regarded as affording American citizens a sufficient opportunity to be saved.

The United States has insisted throughout that the operations of the submarines shall not "jeopardize the lives of American citizens," and notwithstanding the formal denial from Vienna that the Ancona was shelled after she stopped, the fact that the ship actually was torpedoed while a number of passengers still were aboard is regarded as the chief circumstances upon which representations will be made.

Got \$100,000 Order, and Died.

Harrisburg, Pa., Nov. 18.—Jeremiah S. Shanahan, aged 60, died today after receiving an order for \$100,000 worth of artificial limbs from the French government.

REBUKES LIBEL AGAINST HIGH SCHOOL GIRLS

Mrs. Meder Quotes Man Who Had Heard Somewhere That 359 Chicago Pupils Were Ruined Last Year.

Chicago, Nov. 18.—An investigation into libels in the high schools here which followed published statements of laxity among the pupils, has vindicated the pupils, according to a report tonight by Mrs. Ella Flagg Young, superintendent of schools.

An address by Dr. Jane Scherzer, president of Oxford College for Women, at Oxford, O., at the international purity congress at San Francisco, last July, reflected on the morals of the high school girls. Mrs. Young said, at about the same time that Mrs. Leonard Meder, formerly commissioner of public welfare, was quoted in the newspapers here as saying:

"I know there were as many as 359 cases of ruined girls in the high schools of Chicago last year."

Mrs. Meder replied to an inquiry of Mrs. Young by sending a copy of a letter she had received from Parker H. Schermer, recently employed by the board as director of a bureau of statistics. The letters said:

"Answering your inquiry I am informed by people who claim to know that the annual record of girls attending school in Chicago who become pregnant are from 250 to 350. There is certainly a wonderful field for your welfare work in the city."

Schermer told the committee he did not remember writing the letter but if he gave out any such information he took no responsibility for the figures.

"I may have repeated something I heard at a woman's club meeting," he said.

The investigation was made through the teachers and principals. The report was referred to attorneys for the board.

There is a splendid opportunity for a producer of turkeys, ducks and geese in the Rio Grande valley. A man should have a knack for producing poultry, and capital to run him at least two years. As soon as a man demonstrated he could produce good reliable stock his success would be assured. We receive many inquiries from both this state and Arizona for this kind of poultry but there is no regular supply.

GAS AND JUICE MEN ENTERTAINED BY W. P. SOUTHARD

Employees of Electric Light and Power Company Guests of General Manager at Banquet at Combs.

More than forty of the employees of the Albuquerque Gas, Electric, Light and Power company, together with their families, occupied seats around the banquet board at the Hotel Combs last night as the guests of General Manager W. P. Southard. The banquet was an elegant affair and well served, and the occasion was in the highest degree enjoyable.

The affair was given by Mr. Southard as a means of expressing to the employees of the company his appreciation of the splendid co-operation that they have given him since his connection with the local concern. In a few well chosen words at the end of the dinner the host explained the circumstances under which he had worked since coming to Albuquerque and what had been accomplished by the men under him.

Economics Effect.

About a year ago, said Mr. Southard, the word had been passed out from the general offices of the Federal Light and Traction company, of which the local company is a branch, that greater economy must be exercised by all the departments of the corporation. This had been made necessary, he explained, by reason of the fact that the outbreak of the war in Europe had made money tight and funds for extensions and improvements were not to be had.

How well the local plant had done was shown by the fact that Albuquerque had led all of the cities in which the company was represented in the matter of economy, and this without impairing the service rendered in any way. A saving of \$12,000 in ten months was the record of this plant. Mr. Southard read a letter from President Sanderson, and concluded his remarks with the heartfelt exclamation: "Boys, I'm proud of you!"

Unique Menu.

The menu was in the highest degree technical and caused many a laugh. It was as follows:

- Magnetic Control.
- 50,000 Volt Bulbion.
- Brown Insulators.
- Filet of Sole a la 3 Phase.
- Purifier Chimp.
- Regular Contact Points.
- Power House Troubles With Turbine Oil.
- Lineman's Delight, Thirty Amp. Fuses.
- Coke Patties.
- Carbolinum Salad.
- Frozen Coal Gas.
- Assorted Fittines.
- Coal Tar.
- Thursday evening, November 18, 1915.

UNIQUE FORGERY CASE COMES UP IN INDIA

(Associated Press Correspondence.)
Calcutta, India, Oct. 26.—The forgery of a blind man's thumb print has just been the subject of protracted litigation in the high court at Madras. For the first time, it is said, in legal history, a merchant asked for judgment against the blind man, support his application with a document signed with the alleged thumb print of the debtor. The latter repudiated the paper, declaring that he had traveled in a train with him and while pretending to massage his fingers had taken his thumb impression and used it for fabricating the document.

The court, after protracted hearings, found the blind debtor's story correct and dismissed the merchant's application for judgment.

WENT TO THE HOSPITAL.

C. E. Blanchard, postmaster at Blanchard, Cal., writes: "I had kidney trouble so bad I had to go to the hospital. Foley's Kidney Pills were recommended to me and they completely cured me. I cannot speak too highly of them." Sufferers in every state have had similar benefit from this standard remedy for kidney and bladder ailments. It banishes backache, stiff joints, swollen muscles and all the various symptoms of weakened or diseased kidneys. Sold everywhere.
